Abdullajon Qurbonov

Full Stack Developer | React, Node.js, MongoDB

📫 abdullajonq6@gmail.com | 🌐 [GitHub](#)| 📱 [Linkedin](#)
🏠 Tashkent, Uzbekistan

Professional Summary

Passionate and results-driven Full-Stack Developer with 2 years of practical experience in building scalable, user-centric web applications. Started my programming journey with Najot Ta'lim's foundational React.js Bootcamp, where I built strong frontend fundamentals. Later, I deepened my backend expertise by completing a backend development course on Sammi.ac platform, gaining proficiency in Node.js, Express.js, and MongoDB. Known for delivering clean, efficient code and full-stack solutions that blend seamless functionality with engaging user experiences. Key Strengths: - Strong problem-solving abilities and attention to detail - Excellent collaboration skills and ability to work in team environments - Quick learner with a passion for staying updated with latest technologies - Experience in Agile development methodologies

Technical Skills

Frontend Development: Languages: JavaScript (ES6+), HTML5, CSS3, SCSS/Sass Frameworks & Libraries: React.js, Next.js (learning), Redux/Context API UI Libraries: ShadCN UI, Mantine UI, Ant Design, Bootstrap, Tailwind CSS Tools: Webpack, Vite, npm/yarn Backend & Database: Runtime: Node.js Framework: Express.js Database: MongoDB, MongoDB Atlas API: RESTful API Development Tools: Version Control: Git, GitHub Development: VS Code, Chrome DevTools, Postman Design: Responsive design Testing: Jest Deployment: Vercel, Netlify, Heroku

Professional Experience

Frontend Developer | Freelance Projects | 2023 - Present - Developed and maintained multiple web applications using React.js - Collaborated with designers to implement pixel-perfect UI/UX designs - Optimized applications for speed and scalability - Integrated third-party APIs - Implemented responsive design for cross-device compatibility

Projects

- Bojxona Servis – Customs Warehouse Management System Frontend Developer | https://bojxonaservis.uz Government-level logistics platform. Developed responsive UI and ensured cross-device compatibility. - HRMS – Human Resource Management System Full-Stack Developer | https://hrms-neon-xi.vercel.app HR management platform using React.js, Node.js, Express, and MongoDB. Implemented authentication, dashboards, REST APIs. - Twitter X Clone Full-Stack Developer | https://github.com/qAbdullajon/twitter-x-clone Built a social media clone with dynamic feeds, user profiles, and reusable components. - Dilshoda Marathon Landing Page Frontend Developer | https://dilshoda-marafon.vercel.app Responsive landing page using Next.js and Tailwind CSS. Focused on performance and mobile-first design.

Education & Certifications
Frontend React.js Bootcamp | Najot Ta'lim | 2023 - Intensive 6-month frontend development program -

Hands-on projects, Git workflow Self-Learning | 2022 - Present - 50+ hours on JavaScript and React - Open-source contributor, coding challenge participant

Languages

Uzbek: Native Russian: Conversational English: Elementary (improving) - Enrolled in English course - Aiming for intermediate level by 2025

Career Objectives

Seeking a dynamic team to contribute React.js skills and grow as full-stack developer. Interests: - Frontend-focused roles (React.js/Next.js) - Full-stack JavaScript positions - Startups and growth-stage companies - Open to remote/hybrid

Additional Information

Availability: Immediate Work Authorization: Uzbekistan Open to: Full-time, Part-time, Contract, Remote Interests: Open source, UI/UX design, web technologies Portfolio: Available upon request

Quote

"Passionate about creating digital experiences that make a difference. Always ready to learn, grow, and contribute to innovative projects."
